## Volume 28 1992

## Contents

## Issue 1

---

 Articles
 

---

- K.L. Ford, P.B. Holman, J.A. Grant and J.M. Carson** Radioactivity Maps of Nova Scotia, 1
- M.A. MacDonald, R.J. Horne, M.C. Corey and L.J. Ham** An overview of recent bedrock mapping and follow-up petrological studies of the South Mountain Batholith, southwestern Nova Scotia, Canada, 7
- R.J. Horne, M.A. MacDonald, M.C. Corey and L.J. Ham** Structure and emplacement of the South Mountain Batholith, southwestern Nova Scotia, 29
- M.C. Corey** Geological features within the Big Indian Lake pluton, Hants County, Nova Scotia: evidence of igneous layering from recent diamond drilling, 51
- D.J. Kontak and J. Dostal** The East Kemptville tin deposit, Yarmouth County, southwestern Nova Scotia: a lithogeochemical study of the wallrock metasedimentary rocks, 63
- S.L. (Woodend) Douma** Field relationships, mineralogy and structural features of the Port Mouton pluton, southwestern Nova Scotia, 85
- S.M. Barr and A.S. Macdonald** Devonian plutons in southeastern Cape Breton Island, Nova Scotia, 101
- R.A. Wilson** Petrographic features of Siluro-Devonian felsic volcanic rocks in the Filey Brook area, Tobique Zone, New Brunswick: implications for base metal mineralization at Sewell Brook, 115

---

 Abstracts - Atlantic Geoscience Society, 1992 Symposium
 

---

- M.C. Corey** The occurrence of primary magmatic layering within the Big Indian Lake pluton, Hants County, Nova Scotia, 138
- W.L. Dickson, S.J. O'Brien and A. Kerr** Middle Paleozoic granite plutonism in southern Newfoundland, 138
- W.W. Gardiner** Metallogeny of the Jacquet River area, northern New Brunswick, 139
- A.L. Grammatikopoulos and S.M. Barr** Petrogenesis, age and economic potential of gabbroic intrusions in southern New Brunswick and southeastern Cape Breton Island, 139
- D.J. Kontak** Geological, geochemical, and fluid inclusion studies of the Gays River Pb-Zn deposit, southern Nova Scotia: a carbonate-hosted replacement deposit of Carboniferous age, 140
- M.A. MacDonald, M.C. Corey, L.J. Ham, R.J. Horne and A.K. Chatterjee** New insights into the generation, emplacement, and magmatic evolution of the South Mountain Batholith, Nova Scotia, 140
- S.R. McCutcheon, D.R. Lentz and W.W. Gardiner** Endogranitic Sn potential beneath the Nigadoo River base-metal vein/lode deposit, northern New Brunswick, 141

---

 Issue 2
 

---

 Articles
 

---

- J.B. Murphy, G. Pe-Piper, J.D. Keppie and D.J.W. Piper** Correlation of Neoproterozoic III sequences in the Avalon Composite Terrane of mainland Nova Scotia: tectonic implications, 143

- K.L. Currie, O. van Breemen, P.A. Hunt and J.T. van Berkel** Age of high-grade gneisses south of Grand Lake, Newfoundland, 153
- R. Hon, J.P. Fitzgerald, S.L. Sargent, W.D. Schwartz** Silurian-Early Devonian mafic rocks of the Piscataquis volcanic belt in northern Maine, 163
- J.A. Winchester, C.R. van Staal and L.R. Fyffe** Ordovician volcanic and hypabyssal rocks in the central and southern Miramichi Highlands: their tectonic setting and relationship to contemporary volcanic rocks in northern New Brunswick, 171
- M.J. McLeod, A.A. Ruitenberg and T.E. Krogh** Geology and U-Pb geochronology of the Annidale Group, southern New Brunswick: Lower Ordovician volcanic and sedimentary rocks formed near the southeastern margin of Iapetus Ocean, 181
- 
- Abstracts - Atlantic Geoscience Society, 1992 Symposium and Colloquium
- 
- S.M. Barr, C.E. White and M. Graves** Meguma Terrane in southern Cape Breton Island?, 194
- D. Bérubé and J.J. Thibault** Coastal zone mapping in New Brunswick, 194
- A. Caron** Geology of a mineralized belt along the southeastern contact aureole of the Pokiok Batholith, 194
- A. Caron** The use of fold nucleation as a shear sense indicator, 195
- M.C. Corey** The occurrence of primary magmatic layering within the Big Indian Lake pluton, Hants County, Nova Scotia, 195
- W.L. Dickson, S.J. O'Brien and A. Kerr** Middle Paleozoic granite plutonism in southern Newfoundland, 196
- M. Doyon and N.A. Van Wagoner** Geology of the Stirling volcanogenic massive sulphide deposit, southeastern Cape Breton Island, Nova Scotia, 196
- L.R. Fyffe** Re-interpreted contact relationships of the Ordovician Cookson Group, southwestern New Brunswick, 197
- L.R. Fyffe** Revised stratigraphy of Early Paleozoic rocks in the Piskahegan Stream-Mount Pleasant area of southwestern New Brunswick, 197
- L.R. Fyffe and M.L. Bevier** A U-Pb date on the Mohannes pluton of southwestern New Brunswick, 198
- W.W. Gardiner, J. Walker and S.R. McCutcheon** Granitoid-related mineral deposits, Antinouri Lake-Nicholas Dénys area, northern New Brunswick, 198
- W.W. Gardiner** Metallogeny of the Jacquet River area, northern New Brunswick, 199
- A.L. Grammatikopoulos and S.M. Barr** Petrogenesis, age and economic potential of gabbroic intrusions in southern New Brunswick and southeastern Cape Breton Island, 199
- R.R. Irrinki and M.P. Rennie** Current projects of the Geoscience Information System (GSIS), 200
- D.G. Keighley and R.K. Pickerill** Strangely preserved flutes and grooves from the fluvial Port Hood Formation, (Carboniferous) of western Cape Breton Island, Nova Scotia, 200
- D.J. Kontak** Geological, geochemical, and fluid inclusion studies of the Gays River Pb-Zn deposit, southern Nova Scotia: a carbonate-hosted replacement deposit of Carboniferous age, 201
- J.P. Langton** Geological studies south of the Brunswick Mines area (21 P/5 west), Bathurst Camp, northern New Brunswick, 201
- D.R. Lentz, W.D. Goodfellow and S.J. Juras** Re-examination of the origin of quartz-augen schist in light of recent investigations at the Brunswick No. 12 sulphide deposit, Bathurst base-metal camp, Bathurst, New Brunswick, 202

- S. Lin and P.F. Williams** The geometrical relationship between the stretching lineation and the movement direction of shear zones, 203
- B.D. Loncarevic** ECSOOT Lithoprobe Line: some insights from offshore gravity and magnetic surveys, 203
- M.A. MacDonald, M.C. Corey, L.J. Ham, R.J. Horne and A.K. Chatterjee** New insights into the generation, emplacement, and magmatic evolution of the South Mountain Batholith, Nova Scotia, 203
- F. Marillier, M. Malo and The MAT Group** The Maritime Appalachian Transect (MAT): a new proposal to Lithoprobe, 204
- S.R. McCutcheon, D.R. Lentz and W.W. Gardiner** Endogranitic Sn potential beneath the Nigadoo River base-metal vein/lode deposit, northern New Brunswick, 204
- M.J. McLeod, A.A. Ruitenbergh and S.C. Johnson** Southern New Brunswick compilation and correlation project by the New Brunswick Department of Natural Resources and Energy, 205
- M.J. Melchin** Evolution and extinction patterns in Late Ordovician-Early Silurian graptolites as revealed by the study of uncompressed specimens from Arctic Canada, 206
- W.A. Nickerson** Horton basin inversion event in the Moncton Subbasin, New Brunswick, 206
- S. Palmer, J.W.F. Waldron and W.G. Parkins** Lacustrine stromatolites at the base of the Late Carboniferous Merigomish Formation, Pictou County, Nova Scotia, 206
- M.A. Parkhill** Applications of regolith mapping and sampling in the California Lake area, northern New Brunswick, 207
- R.K. Pickerill and J.W.F. Waldron** Significance of trace fossils from the Tancook Member of the Goldenville Formation; Meguma Group, Mahone Bay area, Nova Scotia, 207
- A.G. Pronk** The use of regional stream sediment data in assessing drinking water quality: an example from southwest New Brunswick, 208
- D. Rabu and J.L. Rabottin** Geological mapping program on St Pierre and Miquelon islands, 208
- B.C. Reed, J.H. Calder, J.B. Murphy and R.D. Nance** Kinematic analysis of Late Paleozoic deformation in the western Cumberland Basin, 208
- A. Ruffman** A possible origin of the 1989-1990 Laurentian Channel earthquakes, 209
- P.J.C. Ryall and E. Pearson** Gravity in central Nova Scotia south from the Liscomb Complex, 209
- G.S. Stockmal and J.W.F. Waldron** The Appalachian structural front, Port au Port Peninsula, western Newfoundland: balanced cross sections and implications for Humber Zone tectonics, 210
- C.R. van Staal, J.L. Burgess, M. Brown and J.A. Winchester** Preliminary report on the structural and metamorphic history of the Port aux Basques Complex in southwestern Newfoundland, 210
- J.C. White** Deformation mechanism transitions in the Cobequid fault zone, Nova Scotia, 211
- R.A. Wilson** Bedrock geology of the Heath Steele-Halfmile Lake area, Bathurst Camp, northern New Brunswick, 211
- Q. Zheng and J.P.A. Noble** Knoll Reef facies and diagenesis of the LaPlante Formation (Late Silurian), northern New Brunswick, 212

---

**Book Review**

---

**J.P.A. Noble** East Coast Basin Atlas Series, the Scotian Shelf. Geological Survey of Canada, Energy, Mines and Resources, Canada, 213

---

**Issue 3**

---

---

**Articles**

---

**L.R. Fyffe and R.F. Miller** A note on reported plant fossils from the Flume Ridge area of southwestern New Brunswick, 215

**H.G. Miller and S.A.M. Thakwalakwa** A geophysical and geochemical interpretation of the configuration of the Mount Peyton complex, central Newfoundland, 221

**M. Emory-Moore, W.J. Scott, L. Davis and S. Solomon** Detrital chromite concentrations, nearshore Port au Port Bay, Newfoundland, 233

**D. Lavoie and P.-A. Bourque** Stratigraphy, paleoenvironmental evolution and regional significance of the Silurian Lake Aylmer - Lake Saint-François belt, Eastern Townships, Quebec, 243

**R. Hesse and H. Sawh** Geology and sedimentology of the Upper Devonian Escuminac Formation, Quebec, and evaluation of its paleoenvironment: lacustrine versus estuarine turbidite sequence, 257

---

**Abstracts - Geological Association of Canada, Newfoundland Section**

---

**E.R.W. Neale** J. Tuzo Wilson: On the 25th Anniversary of the Discovery of the Avalon Peninsula's Roots, 278

**H. Williams** Did the Atlantic close and then re-open?: a commentary, 279

**I. Abid and J. Harper** Petrography and diagenesis of reservoir sandstones, Hibernia oil field, Jeanne d'Arc Basin, 280

**S.M. Barr, R.P. Raeside and B.V. Miller** Newfoundland to Cape Breton Island: terrane correlations, 280

**W.D. Boyce** An unusual early Ordovician (Tremadoc) trilobite fauna of Gondwanan affinity in the Cow Head Group, western Newfoundland, 281

**E.T. Burden and A.B. Languille** Stratigraphy and biostratigraphy of Cretaceous and Paleocene strata on the northeast coast of Baffin Island: economic implications for an early and protracted rift history, 281

**P.A. Cawood** The geological development of the Humber and western Dunnage zones: the Wilson Cycle and much more, 282

**S.P. Colman-Sadd** Geologic history of the Gander Zone and the Exploits Subzone in Newfoundland during the early Paleozoic: a review, 282

**E.R. Deutsch and J.P. Hodych** Paleomagnetic support for a mid-Ordovician wide Iapetus Ocean: a summary of the evidence, 283

**J. Hall and G. Quinlan** Continuity of crustal fabric patterns observed in deep seismic reflection profiles across the northern Appalachian/Caledonide mobile belt, 283

**J.D. Harper and H. Moore** Jeanne d'Arc Basin core studies unlock basin development secrets, 283

**J.D. Harper and I.K. Sinclair** Concepts of Paleozoic paleogeography in eastern and central North America, 284

**P.F. Hoffman** Rodinia to Gondwanaland to Pangea to Amasia: alternating kinematics of supercontinental fusion, 284

- R.A. Jamieson** Exhumation of eclogite, western Baie Verte Peninsula: microprobe meets lithoprobe, 285
- S. Kumarapeli** Evolution of a plume-generated segment of the rifted margin of Laurentia: early stage of a Wilson Cycle in operation, 285
- G.S. Langdon** Carboniferous tectonics, basin development and deformation in the Cabot Strait area, 286
- S.J. O'Brien, G.R. Dunning, R.D. Tucker, C.F. O'Driscoll and B.H. O'Brien** On the nature, timing and relationships of Late Precambrian tectonic events on the southeastern (Gondwanan) margin of the Newfoundland Appalachians, 286
- A. Ruffman and J.E. van Hinte** Orphan Knoll: a window on the opening of the north Atlantic, 287
- I.K. Sinclair** Transpression and transtension in the Jeanne d'Arc Basin, Grand Banks, 287
- J.W. Skehan and N. Rast** Evidence for the role of the Pocologan, New Brunswick and Burlington, Massachusetts shear zones in the Neoproterozoic Wilson Cycle, 288
- R.K. Stevens** Have the remnants of the Proto Atlantic any use as fuel? Some implications for the early history of the earth, early life and other things, 288
- G.S. Stockmal and J.W.F. Waldron** Structure and tectonic setting of the Port au Port Peninsula, western Newfoundland: implications for Humber Zone tectonics and Acadian versus Taconian overthrust events, 289
- H.S. Swinden** Volcanogenic sulphide metallogeny of the Iapetus Ocean in the Canadian Appalachians: complexities in time, space and tectonic setting, 289
- Z.A. Szybinski, P.A. Cawood, H.G. Miller and G.A. Jenner** Silurian Notre Dame Bay nappe in the Newfoundland Appalachians, 290
- C. van Staal and H. Williams** Dunnage-Gander relations in the Appalachian-Caledonian Orogen: evidence for an early Ordovician arc-continent collision, 290
- J.W.F. Waldron and G.S. Stockmal** Post-Taconian history of the Newfoundland Humber Zone, 291
- H. Williams** Ideas on the evolution of the Appalachian Orogen before the Wilson Cycle, 291
- J.T. Wilson** Two scientific revolutions in the earth sciences, 291
- 
- Abstracts - 1992 Atlantic Universities Geological Conference**
- 
- E.J. Clarke** Tectonostratigraphic development and economic geology of the Sops Head Complex, western Notre Dame Bay, Newfoundland, 294
- M.P. Cude** Geochemical and isotopic constraints on the Avalon Composite Terrane during the Early Silurian, 294
- J. MacDonald** Terrain stability and thermal performance along the Norman Wells pipeline, 294
- L. McDonald** Structure of the Dunamagon Granite, Baie Verte Peninsula, Newfoundland, 295
- D.J. Pass** Late Paleozoic volcanic stratigraphy and structurally constrained dyke emplacement, Squally Point, western Cobequid Highlands, Nova Scotia, 295
