INDEX, VOLS. 1-X (1976-86)

This index is in two parts, the first by author, the second by authors of books reviewed. After each entry, a code specifies:

A = article

N = research note/note de recherche

R = review/compte rendu

The number in parentheses following an entry indicates the whole number of the issue, the numbers outside parentheses the page numbers referred to. Following is a list showing the whole numbers of issues and corresponding volume/number/date.
