Geoheritage

Geodiversity: A New Paradigm for Valuing and Conserving Geoheritage

Earth and Health - Building A Safer Canadian Environment

Groundwater Sustainable Development in Canada – Emerging Issues

Geology of the British Columbia Parliament Buildings, Victoria
A journal published quarterly by the Geological Association of Canada, incorporating the Proceedings.

Subscriptions: Receiving four issues of Geoscience Canada per year is one of the benefits of being a GAC member. A subscription is $150.00 per year or $40.00 per single copy.

Photocopying: The Geological Association of Canada grants permission to individual scientists to make photocopies of one or more items from this journal for non-commercial purposes advancing science or education, including classroom use. Other individuals wishing to copy items from this journal must obtain a copying licence from Access Copyright (Canadian Copyright Licensing Agency), 1 Yonge Street, Suite 1900, Toronto, Ontario M5E 1E5, phone (416) 868-1620. This permission does not extend to other kinds of copying such as copying for general distribution, for advertising or promotional purposes, for creating new collective works, or for resale. Send permission requests to Geoscience Canada, at the Geological Association of Canada (address above).

We acknowledge the assistance of the Government of Canada, through the Publications Assistance Program (PAP), toward our mailing costs.

Cover. Parliament Buildings in Victoria, British Columbia, built in two phases 1893-1898 and 1912-1915; the main building stone is Haddington Island andesite with lower courses of Nelson Island granite.
