International Urban Bibliography: Recent Publications in Urban History

Bibliographie du monde urbain: Publications récentes en histoire urbaine

Elizabeth Bloomfield

Preface/Préface

As part of its agreement in late 1985 with *Urbanism Past and Present*, the *Urban History Review* now publishes a bibliography of publications in international urban history in each June issue. The bibliography of Canadian urban history will continue to appear in each October issue of the *Urban History Review*.

The International Urban Bibliography is designed primarily for North American readers. Because of space limitations it must be selective, including books and major articles rather than purely local histories or case studies. In accordance with Canada's official language policy, mainly English and French-language publications will be listed. References to publications in other languages should be highly significant statements, for which translated titles should also be provided.

The bibliography is organized first in a general part, subdivided into historiographical, economic, demographic/social, environmental/physical, and administrative sections. The larger Regional division has sections on each world region, subdivided by individual countries.

In compiling this first international listing, I thank publishers in the field of urbanism and urban history who sent advice of new books and also Dr. David Buck of *Urbanism*

En raison de l'entente survenue à la fin de l'année 1985 avec *Urbanism Past and Present*, la *Revue d'histoire urbaine* publiera désormais une bibliographie internationale des publications en histoire urbaine dans le numéro de juin. La bibliographie des publications récentes en histoire du Canada urbain continuera de paraître annuellement dans le numéro d'octobre de la *Revue d'histoire urbaine*.

La bibliographie internationale du monde urbain est surtout destinée aux lecteurs nord-américains. A cause des restrictions d'espace, elle se doit d'être sélective, incluant livres et articles majeurs plutôt que des histoires purement locales ou des études de cas. En conformité avec la politique canadienne sur les langues officielles, les publications rédigées en anglais et en français seront principalement répertoriées. En ce qui concerne les publications dans les autres langues, elles seront largement traitées et les titres seront également traduits.

La bibliographie comporte une première grande division intitulée Aspects généraux, subdivisée en plusieurs sections: historiographie, économie, démographie et société, environnement et aspects physiques et finalement administration. La seconde division, plus vaste, s'intitule Régions et se subdivise à son tour selon les divers pays.

Dans le cadre de cette première compilation, je remercie les éditeurs oeuvrant dans la domaine de l'urbanisme et de l'histoire urbaine pour les informations qu'ils m'ont fait

Past and Present who provided some bibliographic references. I am also grateful to members of my family and to Peter McCaskell, of the Department of Geography, University of Guelph, for help in producing this listing in the short time available.

Bibliographic references for future international lists would be most welcome. I appreciate the willingness of several urbanists specializing in major world regions to serve as advisory contributors. In the future, items listed will usually be those published in the preceding calendar year. Bibliographic references, for inclusion in the June, 1987, issue are welcome from any readers of the *Review*, and should reach the Bibliography Editor by January 31, 1987.

parvenir à propos des nouvelles publications et aussi le Dr David Buck d'*Urbanism Past and Present* qui m'a fourni plusieurs références bibliographiques. Je tiens également à remercier ma famille et Peter McCaskell, du département de Géographie de l'Université de Guelph, qui m'a aidé à produire cette liste dans le peu de temps dont nous disposions.

Des références bibliographiques pour les prochaines listes internationales seront accueillies favorablement. J'apprécie l'empressement manifesté par plusieurs urbanistes spécialistes des principales régions du globe pour jouer le rôle de collaborateurs consultatifs. Dans le futur, la bibliographie couvrira habituellement les publications parues au cours de la précédente année. Les lecteurs de la *Revue* sont invités à faire parvenir des références bibliographiques pour le numéro de juin 1987 à la responsable de la bibliographie avant le 31 janvier 1987.
