HSTC

BULLETIN

14

February 1980 Fevrier

IMPORTANT NOTICE TO HSTC BULLETIN SUBSCRIBERS

After the next issue, the HSTC Bulletin will no longer be offered on a free distribution basis and will undergo considerable change in focus and format.

1. The next issue will be a double one (#15-16) and will complete volume IV.

2. HSTC #17 will be the first issue of a journal for the history of Canadian science, technology and medicine. Its newsletter function will be carried on, with regular departments and, hopefully, an expanded book review section.

3. The new Bulletin will provide a forum for scholarly articles in either English or French, which will be peer assessed, as well as brief notes and brief articles concerning the field.

4. The new Bulletin, which initially will not have outside funding, will be financed through individual subscriptions. The Bulletin will continue to be published by HSTC Publications, a privately-owned firm, but on a non-profit basis.

5. Mr. Arnold Roos of Parks Canada joins us this issue as Associate Editor, replacing retiring co-editor Norman Ball, who will continue as one of our advisory editors.

Fuller details will be announced in HSTC #15-16, which will appear in June 1980. We believe this will be a significant step forward for our young field and we hope to number all of our old readers amongst our new subscribers.
