REVIEWS OF BOOKS

Ed. Note: this is a new feature of the BULLETIN, one which we hope will increase the usefulness of the newsletter. Since a good number of books on Canadian science and technology are now beginning to appear, and many do not receive proper attention in the journals, we will try to provide brief notices and, on occasion, longer essays on important titles.

DIRECTORY OF HISTORIANS/ANNUAIRE DES HISTORIENS

HSTC BULLETIN #11 (May 1979) will carry the third edition of the directory. For those who have not yet been listed, they should provide the basic information, in the format used for the first two editions, to the editors by the end of April. Those now listed, but whose entries need additions or corrections, should provide the changes to the editors at the same time.
