Résumé de l'article

In the following months, two Industrial Relations Centers of Canadian Universities will hold their Industrial Relations Conference. At McGill University, September 9th and 10th, will be studied the problem of Canadian autonomy in Labour-Management Relations under the title of DOMINATION OR INDEPENDANCE? The Center of the University of Toronto is organizing its founding Conference, October 13-15. The subject is INDUSTRIAL RELATIONS IN THE NEXT DECADE: CHALLENGES AND RESPONSES. Here are the programs.

The membership considered the desirability of enlarging the executive committee. After some discussion, it was moved and seconded that the incoming executive prepare a resolution to be distributed to the membership by mail, authorizing the enlargement of the executive by four members, and asking the members to vote by mail on this proposed amendment. The incoming President, Abbé Dion, urged that the retiring President should remain a member of the executive during the period of office of his successor. After some discussion, it was approved that the incoming executive also frame a resolution for distribution to the membership for a mail vote on this issue as well.
