## A Current Bibliography of Canadian Church History

Note: Monographs and articles are listed separately within each section; in each case they are set out in alphabetical order under the name of the author. It will be noted, however, that in sections 5, 6 and 8 the literature is first arranged alphabetically under the name of the subject, whether a communion, place or person. Items are not repeated from section to section as in previous years, but at the beginning of each section, after the first, reference is given to relevant items in earlier sections.
