Bibliography:
Recent Publications Relating to Canada’s Urban Past

Elizabeth Bloomfield

Preface

The present list consists mainly of publications in the years 1979 to 1981, but items in the Canada’s Urban Past bibliography are not included here. While the emphasis is on writings about urban Canada, some general works and statements which offer analogies, approaches and methods useful for Canadian studies have been cited.

Theses with a date of “c. 1980” were listed in the Register of Post-Graduate Dissertations, No. 16 (1981) compiled by the Canadian Historical Association. Users are advised that the thesis titles given here and in the Register may be slightly altered in the final, approved versions of the theses.

With the substantial number of publications of potential interest to Canadian urban history, we need help from the readers of the Urban History Review. Please send bibliographic references, especially for theses, discussion papers, articles on Canadian urban subjects published outside Canada and local history items, to:
