**NOTES FOR CONTRIBUTORS**

**Articles.** Texts may be written in English, French or Spanish, and should not exceed 7000 to 8000 words, including the footnotes and the references. Manuscript should be submitted as an attached document by e-mail to relat.ind@rlt.ulaval.ca. Submission of a paper implies that it is not already protected by copyright and is not currently under consideration by another journal. All manuscripts are reviewed by three anonymous referees. The final decision on publication is made by the Editor.

**References.** References should be identified in the text by last name of author, year of publication, and pagination where appropriate. Example: (Smith, 2004: 642). References mentioned in the text must appear in an alphabetically ordered list at the end of the article in the following format:

**Footnotes.** With the author-date system, footnotes should be restricted and numbered consecutively throughout the manuscript.

**Tables and charts.** Their number should be limited, and they must be carefully and clearly presented. They should also be numbered consecutively in arabic numerals throughout the manuscript, and each must have a title. Their exact location in the text should be indicated.

**Mathematical and econometric equations.** They should be kept to a minimum. Their focus should be on presenting and interpreting results. Technical appendices should be available to readers on request.

**Abstract.** Authors must furnish a brief abstract (around 125 words).

**Summary.** A summary covering the main points of the argument presented, and proportional to the length of the article (around 900 words), should be enclosed.

**Autobiographical note.** Authors should provide their name, title, institutional affiliation, address, telephone and fax numbers and e-mail.
